Basic principles for Auctions

5. **5 minutes Rule** In the event a Bid is placed up to 5 minutes before the prescribed closing time of the given Bidding, the Bidding period shall be extended by 5 minutes starting from the prescribed closing time. In the event further Bids are placed, each Bid shall postpone the closing time of the Bidding by another 5 minutes.
6. **Minimum Price Rule** This rule applies where the Specific Terms for the given Lot so provide. If so, during the Bidding the User shall be informed that his Bid is lower than the Minimum Price by means of the following message "Minimum Price not reached." In the event the Bid placed by the User is higher than the Minimum Price, the User shall receive the following message "Minimum Price reached." In the event none of the Bids reaches at least the Minimum Price, the Seller shall not be obliged to sell the Lot, Lots or Combination of Lots under the Bid.
7. **No Offer Rule** In the event no Bid is placed in the given Bidding, the period of the Bidding shall be extended up to the close of the last Bidding in the given Auction.
8. **Combination Rule** This rule applies where the Specific Terms for the given Lot so provide and describe the given Combinations of Lots. If so, then upon the close of the Bidding for the particular Lots in the Auction additional Biddings for some or all of the Combinations of Lots in the given Auction may, but do not have to, be held. For the purposes of determining the Best Offer it is established that Bids for Combinations of Lots have priority over the Bids for individual Lots constituting the given Combination.

Auction process

9. An Auction shall be conducted pursuant to these General Terms and the Specific Terms relating to the given Auction. Specific Terms shall specify in particular the number of the given Auction, the starting date and the starting of closing date of the given Auction, the time scheduled for the individual Biddings within the given Auction, list of Lots, information on the viewing days, terms of payment for the Lots auctioned in the Bidding, amount of markup of Bid24, terms of collection of the Lots by the Buyer as well as other terms and conditions that may apply to the Auction.
 10. Specific Terms serve to supplement the General Terms with respect to the specific Auction. In the event of discrepancies between the provisions of the Specific Terms and the provisions of these General Terms, the provisions of the Specific Terms shall apply.
 11. In the event an Auction involves one Lot, the Auction shall consist of one Bidding.
 12. In the event an Auction involves more than one Lot, the Auction shall consist of as many Biddings as there are Lots presented within the Auction. Furthermore, if the Specific Terms for the given Auction so provide, then upon the close of the Bidding for the particular Lots in the Auction additional Biddings for some or all of the Combinations of Lots in the given Auction may be held.
 13. In the Bidding process the Users shall place Bids regarding the sale price of the given Lot, Lots or Combination of Lots included in the Auction. A placed Bid shall cease to be a binding offer upon the placement of a more favourable Bid by another User.
 14. A User who places the Best Offer during the Bidding shall be deemed the Buyer and shall thereupon be obliged to purchase the given Lot or Combination of Lots from the Seller pursuant to the General Terms. The Buyer shall be informed by Bid24 via e-mail of the fact that his Bid was the Best Offer in the Bidding not later than within 1 (one) business day following the close of the Bidding as well as receive the documents necessary for the Buyer to pay the price for the auctioned Lot or Combination of Lots and the markup charged by Bid24. If the user does not receive information regarding whether his Bid was or was not deemed the Best Offer within 1 (one) business day following the close of the Bidding, the User shall be obliged to verify that information via his account on the Auction Portal where Bid24 posts such notifications as well as the aforementioned documentation for the Buyers to be able to pay the price for the auctioned Lot or Combination of Lots and the markup charged by Bid24.
 15. The price for the auctioned Lot or Combination of Lots as well as the markup charged by Bid24 shall be increased by the currently applicable rate of the Value Added Tax (VAT). The application of a different rate of taxation pursuant to applicable regulations shall be contingent on the presentation of documents required by the aforementioned regulations to Bid24, and in the case of EU entities – the confirmation of VAT-EU registration. Specific Terms of the given Auction may stipulate that Bid24 charges the applicable VAT amount from the Buyer in the form of a deposit which shall be refunded upon presentation of the legally required documentation justifying tax exemption.
 16. Unless the Specific Terms stipulate otherwise, payment of the price for the auctioned Lot or Combination of Lots as well as the markup charged by Bid24 should be made via fast bank transfer in order to ensure that his funds are credited to the account of Bid24 not later than within 48 hours following the receipt of a pro forma invoice by the Buyer.
 17. The Buyer shall be bound by the placed Bid for a period of three (3) business days following the lapse of the term of payment of the price for the auctioned Lot or Combination of Lots and the markup charged by Bid24 specified in Clause 5.14 hereinabove.
6. **Purchase of a Lot**
1. The Buyer shall purchase the auctioned Lot or Combination of Lots from the Seller.
 2. Conclusion of an agreement of sale between the Buyer and the Seller shall take place upon:
 1. payment of the pro forma invoice received from Bid24 by the Buyer – if such payment is made within the period of time in which the Buyer is bound by the placed Bid as specified in Clause 5.17 hereinabove; or
 2. acceptance of the Buyer's Bid by Bid24 acting on behalf of the Seller pursuant to Clause 6.6 hereinabove.
 3. In the event of Buyer's purchase of a Lot or Combination of Lots from the Seller, the Seller's liability for any defects in the Lot or

Combination of Lots on account of Seller's guarantee shall be excluded. The exclusion or limitation of liability on account of liability shall be null and void in the event the Seller fraudulently conceals a defect from the Buyer.

4. The Buyer is obliged to pay the price for the auctioned Lot or Combination of Lots and the markup charged by Bid24 before the expiration of the payment term specified in the pro forma invoice received from Bid24. Payment shall be made via bank transfer to the account specified by Bid24.
5. In the event the Buyer fails to pay the purchase price of the auctioned Lot or Combination of Lots and the markup charged by Bid24 before the expiration of the payment term specified in the pro forma invoice received from Bid24, the Buyer remains bound by his Bid and is obliged to pay the foregoing. The Buyer's obligation shall expire upon lapse of the time period in which the Buyer is bound by the placed Bid pursuant to the provisions of Clause 5.17 hereinabove unless Bid24, acting on behalf of the Seller, notifies the Buyer of the rejection of the Buyer's Bid prior to the expiry of the aforementioned time period via e-mail sent to the e-mail address provided in the Buyer's user account on the Auction Portal. In the aforementioned situation the Buyer's Bid shall be null and void.
6. Throughout the time period in which the Buyer is bound by the placed Bid pursuant to the provisions of Clause 5.17 hereinabove, Bid24, acting on behalf of the Seller, shall be authorized to accept Buyer's Bid by delivering a statement via e-mail sent to the e-mail address provided in the Buyer's user account on the Auction Portal. An agreement of sale shall thereupon be deemed to have been concluded and the Buyer shall be unconditionally obliged to pay the purchase price of the auctioned Lot or Combination of Lots and the markup charged by Bid24. In the event of Buyer's failure to pay within three (3) days following the acceptance of the Bid by Bid24, Bid24, acting on behalf of the Seller, shall be entitled to withdraw from the agreement of sale concluded as described above. The foregoing right to withdraw from the agreement of sale shall be exercised not later than within ten (10) days following the lapse of the payment term specified in the preceding sentence, by delivering a statement via e-mail sent to the e-mail address provided in the Buyer's user account on the Auction Portal.
7. The day when the funds are credited to the bank account of Bid24 shall be deemed the date of effective payment.
8. VAT invoices shall be issued in accordance with the Buyer's current identification details as disclosed in his user account on the Auction Portal. In the event of a subsequent request from the Buyer to have the VAT invoice amended, Bid24 reserves the right to charge a handling fee of EUR 10 net plus applicable VAT tax.

7. Collection of Lot or Combinations of Lots

1. Buyer's Collection of the Lot or Combination of Lots from the Seller shall take place at the location, time and under the conditions laid down in the Specific Terms. Handover of the Lot or Combination of Lots to the Buyer shall be contingent upon the payment of the purchase price for the auctioned Lot or Combination of Lots as well as the markup charged by Bid24 pursuant to the provisions of Clause 6 hereinabove.
2. Unless the Specific Terms provide otherwise, any and all costs related to the collection of the Lot or Combination of Lots, including transportation, dismantling and other, shall be borne by the Buyer.
3. Dismantling and loading of the Lot shall take place according to the Specific Terms. The Buyer shall be obliged to cover the costs in question. Furthermore, in the event that it is the Buyer who performs dismantling and loading, the Buyer shall be obliged to do so pursuant to the applicable legal regulations (e.g. in the case of dismantling cooling devices the Buyer needs to be qualified to evacuate Freon gasses) and in the event of improper handling by the Buyer, Bid24 shall be entitled to stop the dismantling process. The Buyer shall be obliged to cover the costs of any damage arising in connection with improper handling during dismantling.
4. The Buyer shall be responsible to verify the given Lot and its technical condition upon collection of said Lot.
5. The Buyer shall not be entitled to deny the collection of a Lot due to its technical condition unless the technical condition thereof significantly deteriorated between the viewing day and the collection day of said Lot. In the latter case the Buyer shall be entitled to withdraw from the agreement of sale within two (2) days following the lapse of the time period provided for collection. In the event the Buyer exercises the aforementioned right, Bid24 shall refund the Buyer for the paid purchase price of the auctioned Lot as well as the markup charged by Bid24. The above does not exclude the right of Bid24 to place the aforementioned amount under court deposit in the event of justified doubt as to the effectiveness of such withdrawal.
6. In the event the Buyer does not appear to collect the Lot or Combination of Lots at the specified time and place or refuses to collect the Lot or Combination of Lots without justification, Bid24, acting on behalf of the Seller, shall be entitled to withdraw from the agreement of sale not later than three (3) days following the lapse of the time period provided for collection by delivering a statement to the Buyer's e-mail address. In the aforementioned case Bid24 shall refund the Buyer for the purchase price paid for the auctioned Lot or Combination of Lots and the markup charged by Bid24 shall be retained on account of liquidated damages.
7. During the collection of the Lot or Combination of Lots the Buyer is obliged to confirm his identity upon request of Bid24 or the Seller.
8. Upon collection of the Lot or Combination of Lots the Buyer and the Seller shall prepare and sign a document confirming the handover of the Lot with no reservations.
9. Bid24 shall hand over the funds paid by the Buyer on account of the purchase price for the auctioned Lot or Combination of Lots upon receipt of the document confirming the handover of the Lot or Combination of Lots with no reservations, signed by the representatives of the Seller and the Buyer.
